Maximize productivity, speed up check-out lines, and track inventory in real-time

At Code, we offers a full line of retail barcode readers that quickly and accurately read any barcode. Customer loyalty is the most important part of any retail application. One way to ensure a great customer experience is with a reliable barcode scanner for the different steps in any customer journey. No one likes to be kept waiting for technology to do its job.

The decoding technology behind every Code reader delivers solutions like the ability to read damage barcodes or codes off of mobile screens. A single perfect solution that also gives you the ability to scan codes from e-loyalty apps, mobile coupons, and member ID barcodes. Is your POS solution ready for an upgrade? Work faster and more efficient by simply adding Code readers to your current system.

If cost is a concern, the CR950 is the most cost effective scanner on the market with the highest performance statistics. **What more could you want?**

Applications

- Point-of-Sale (POS)
- Age Verification
- Driver's License Parsing
- Customer Loyalty
- Mobile Coupons
- Check-In

FEATURES AND BENEFITS

Read Barcodes of all Shapes and Sizes. Code readers effortlessly decode virtually any type of barcode. 1D, 2D, mobile, low-contrast, and postal barcodes are no match for these retail readers.

Age Verification Solution. The CR5000 is perfect for applications where you need to verify a customer's age. Quickly and accurately read drivers licenses or ID cards and always ensure you are in compliance.

Capable of Reading Barcodes on Mobile Devices. Code readers quickly and accurately read barcodes off mobile screens. Most generic readers have issues decoding these barcodes do to glare, reflection, cracked screens, etc., for Code it's just not a problem.

Glare Reduction Technology for quick and accurate reading of small barcodes found on mirrored surfaces, ideal for track and trace applications.

Small Form Factors. For operator comfort the entire retail product line is lightweight, ergonomic and easy-to-use. The helps reduce muscle fatigue when operating for extended periods of time.

Mobile Scanning Option. The CR4300 is an enterprise-grade mobile scanning sled. Turn your iOS device into a barcode scanner! With a built-in battery backup, the CR4300 will keep your device charged longer during those long shifts.

Multiple Communication Interfaces for a versatile workflow. From USB and RS232 cables in various lengths, to wireless Bluetooth communication. Users can select the preferred interface to transmit data into industry software.

Inventory Tracking is one of the most important aspects of the retail workflow. It is important to have a barcode reader that will quickly and accurately track and update inventory information. Code readers will do just that.
